

Learn to Type For Free!

These fast and easy touch typing websites offer programs that run you through the steps and lessons necessary to learn how to type professionally on a computer for free! As in most free sites, be careful not to click on advertisement.

www.typing.com/student/start

Practice in this site starts with one letter and progresses as you feel more comfortable; it provides beginner, intermediate and advanced levels; as well as practice exercises. Sign in is available in the site to track your progress, but it is not required.

Let's Get Started!

Welcome to Typing.com! We are going to start off really easy. On the next screen, just type **the letter J** with your **right index finger**.

To begin, press the **CONTINUE** button below.
